DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE ABSTRACT:

After line 10, delete "Application in the UMTS field" and "Figure 4."

Allowable Subject Matter

1. Claims 1-26 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 10 and 19, the closest prior art to the claimed subject matters is Rached (6,671,313) in view of Cochran (6,363,124), who disclose a method to estimate the impulse response of a propagation channel in a system having at least one sensor comprising the step of estimating the statistic of additive noise on the basis of the received signal, wherein the additive noise resulting from the interference and from the thermal noise. However, none of prior arts of record teaches the step of estimating a covariance matrix of a noise from an empirical covariance matrix of

observations and a number of pilot chips of a learning sequence transmitted with the received signal as specified in claims.

Claims 2-9, 11-18 and 20-26 are allowed as being dependence upon independent claims 1, 10 and 19, which have been allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
